## Living in an apartment

What could be nicer than knowing you're living in an apartment designed specifically to enable you to live as independently as you can for as long as you can, and with all the modern features you could possibly need.

Walkways, covered and uncovered, sheltered seating areas, attractive timber features, and an overall design that allows you as much privacy as you want, have all been incorporated in the design.

The apartment block has the Pembroke Lounge that allows for a wide range of activities plus access to a large courtyard – just perfect if you're entertaining family or friends. A lift between the two levels enables easy access to the whole complex.
